

## Dataset: Superstore Sample Tableau Dataset

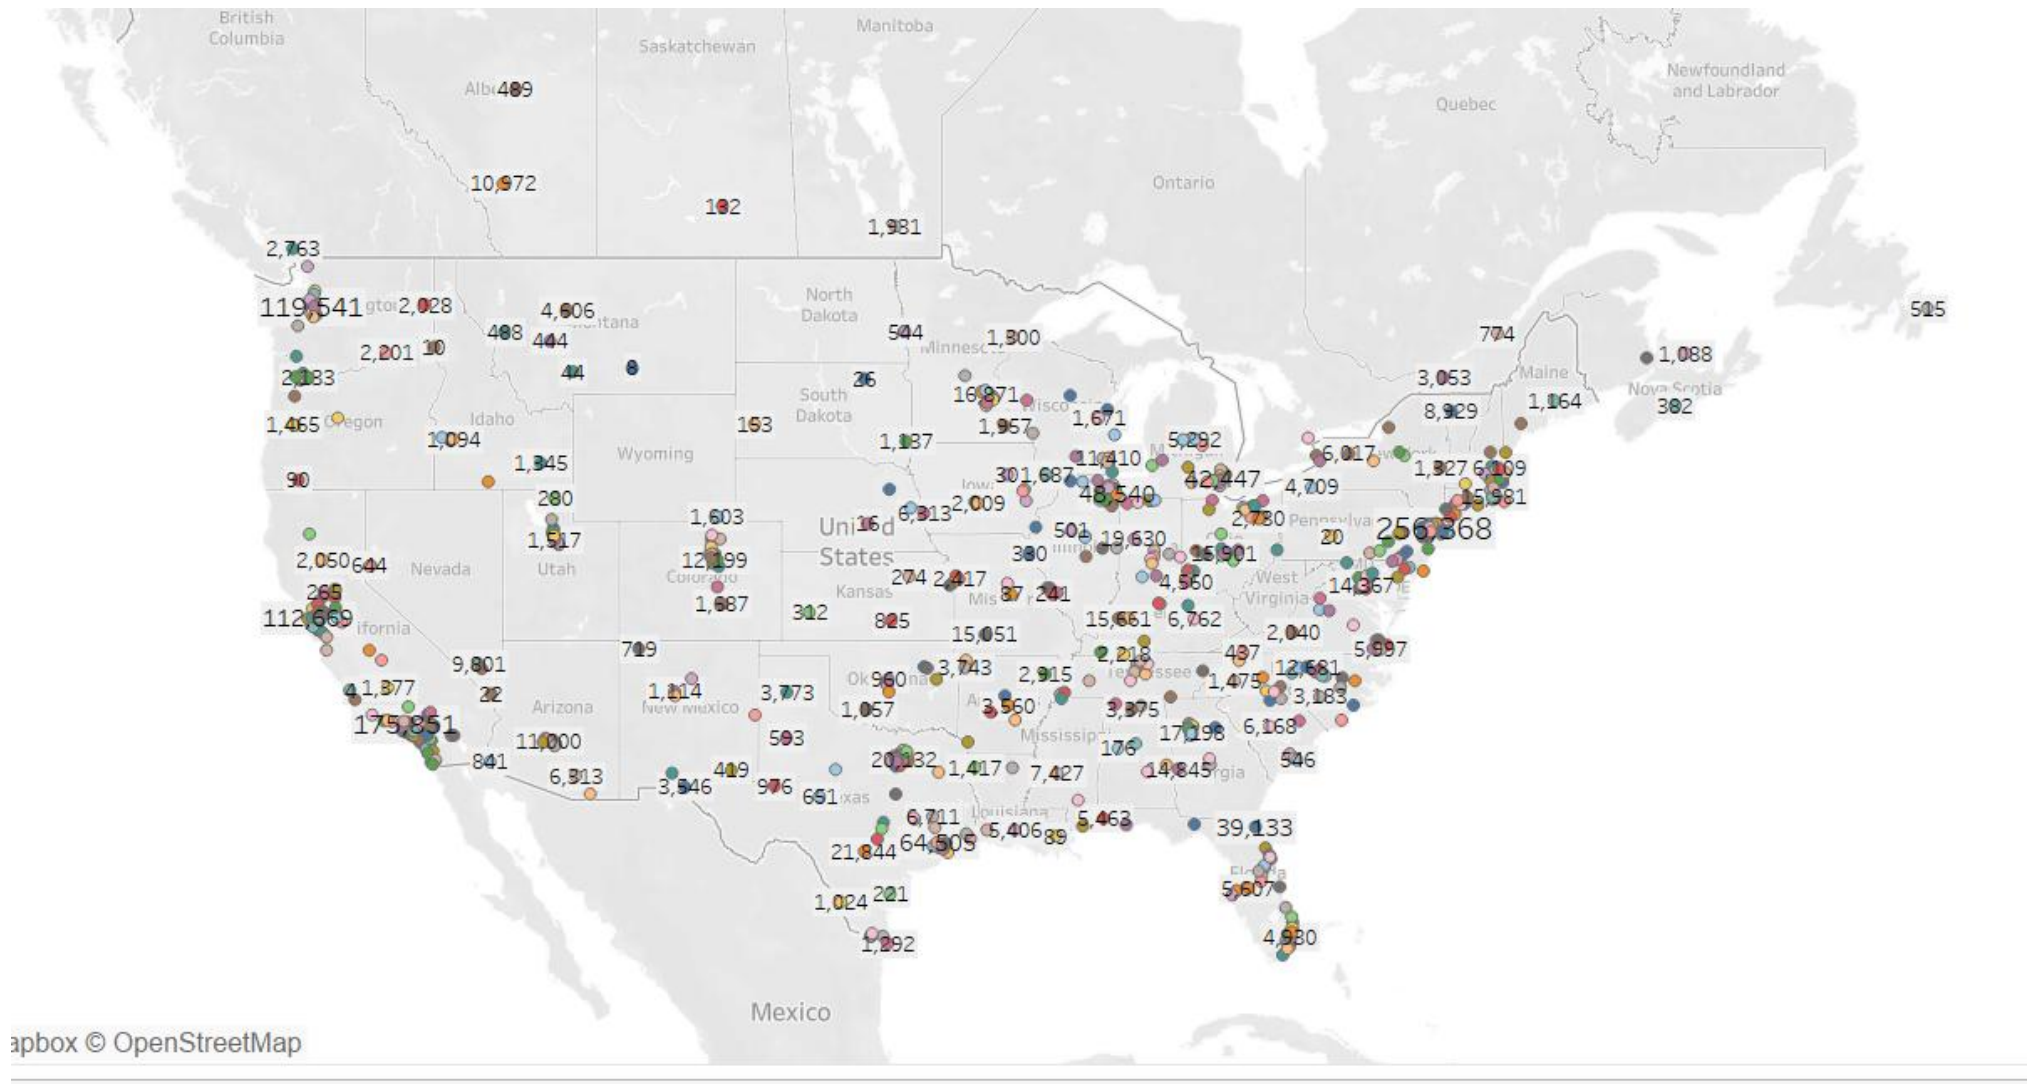

1. **Bar Graph: Sales by State/Province** – Shows total sales distribution across different states and provinces

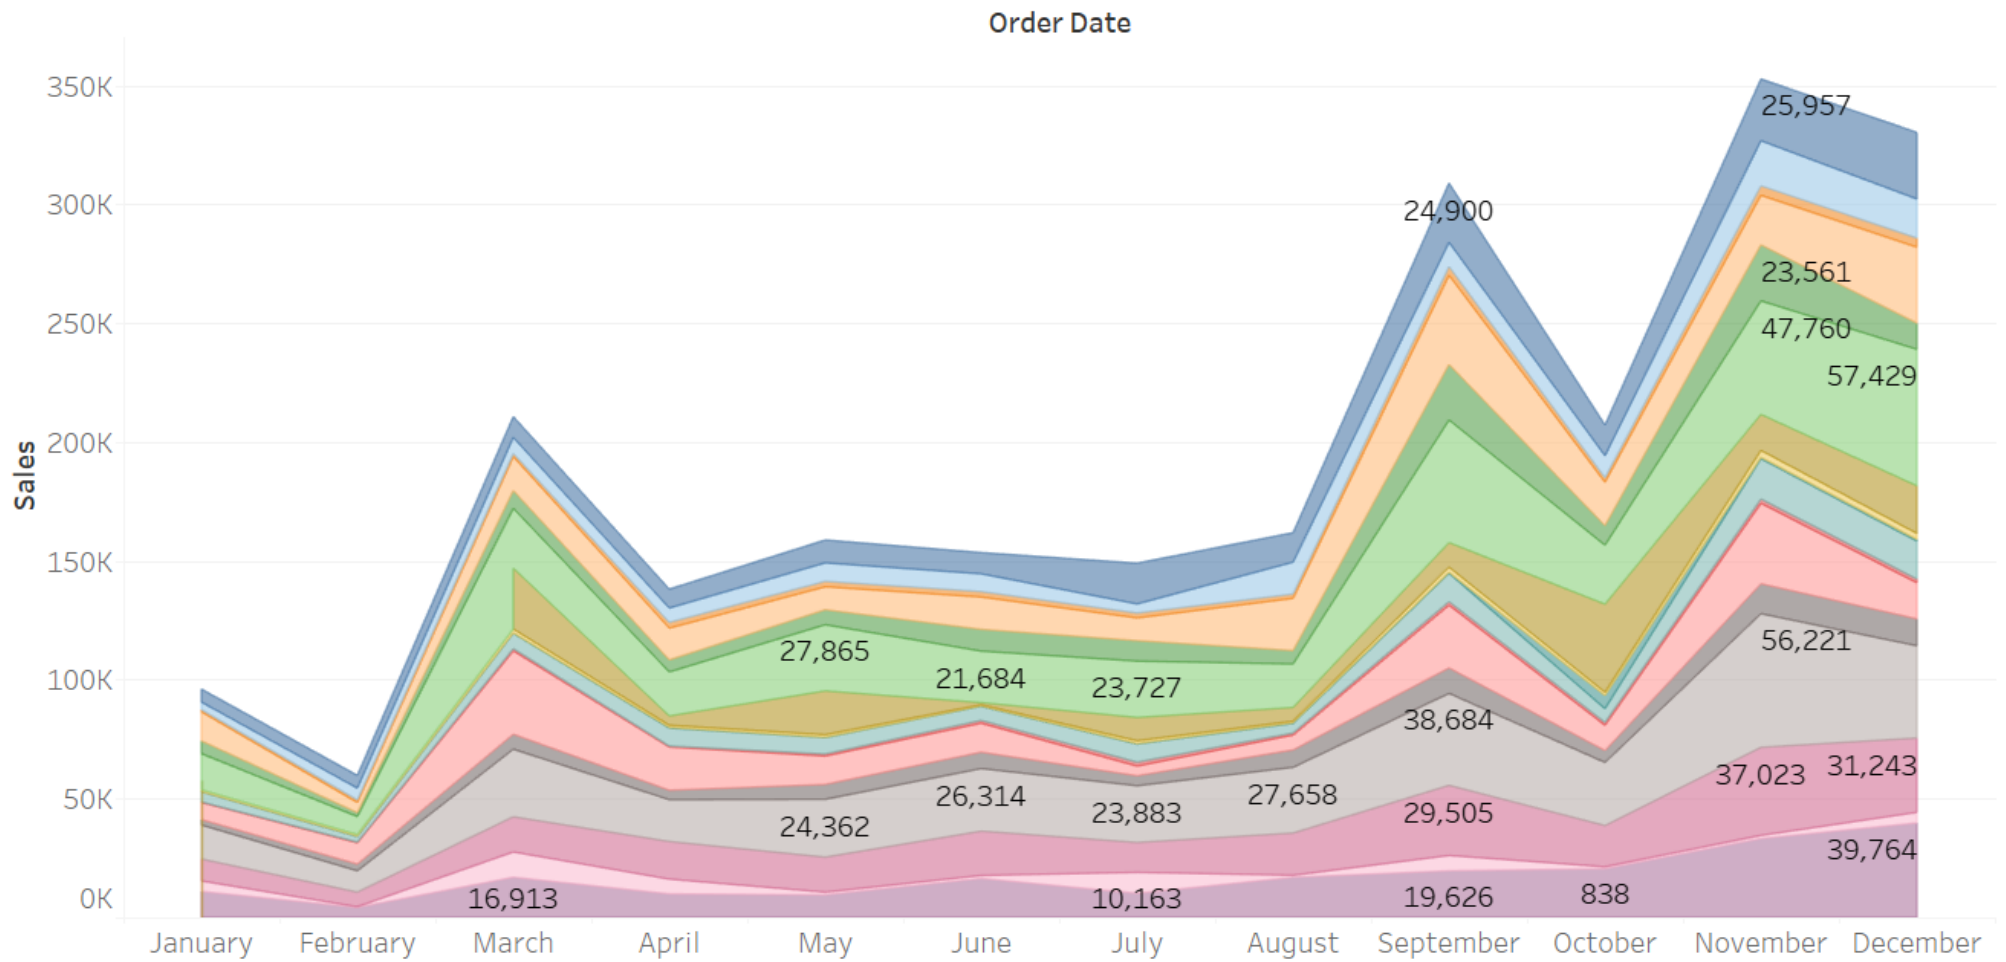

## 2. **Map:** Geographic Distribution of Sales (State/Province) – Darker shades represent higher sales values across states/provinces.

### 3. **Map: Sales by City** – Circle size/labels indicate the magnitude of sales at different cities

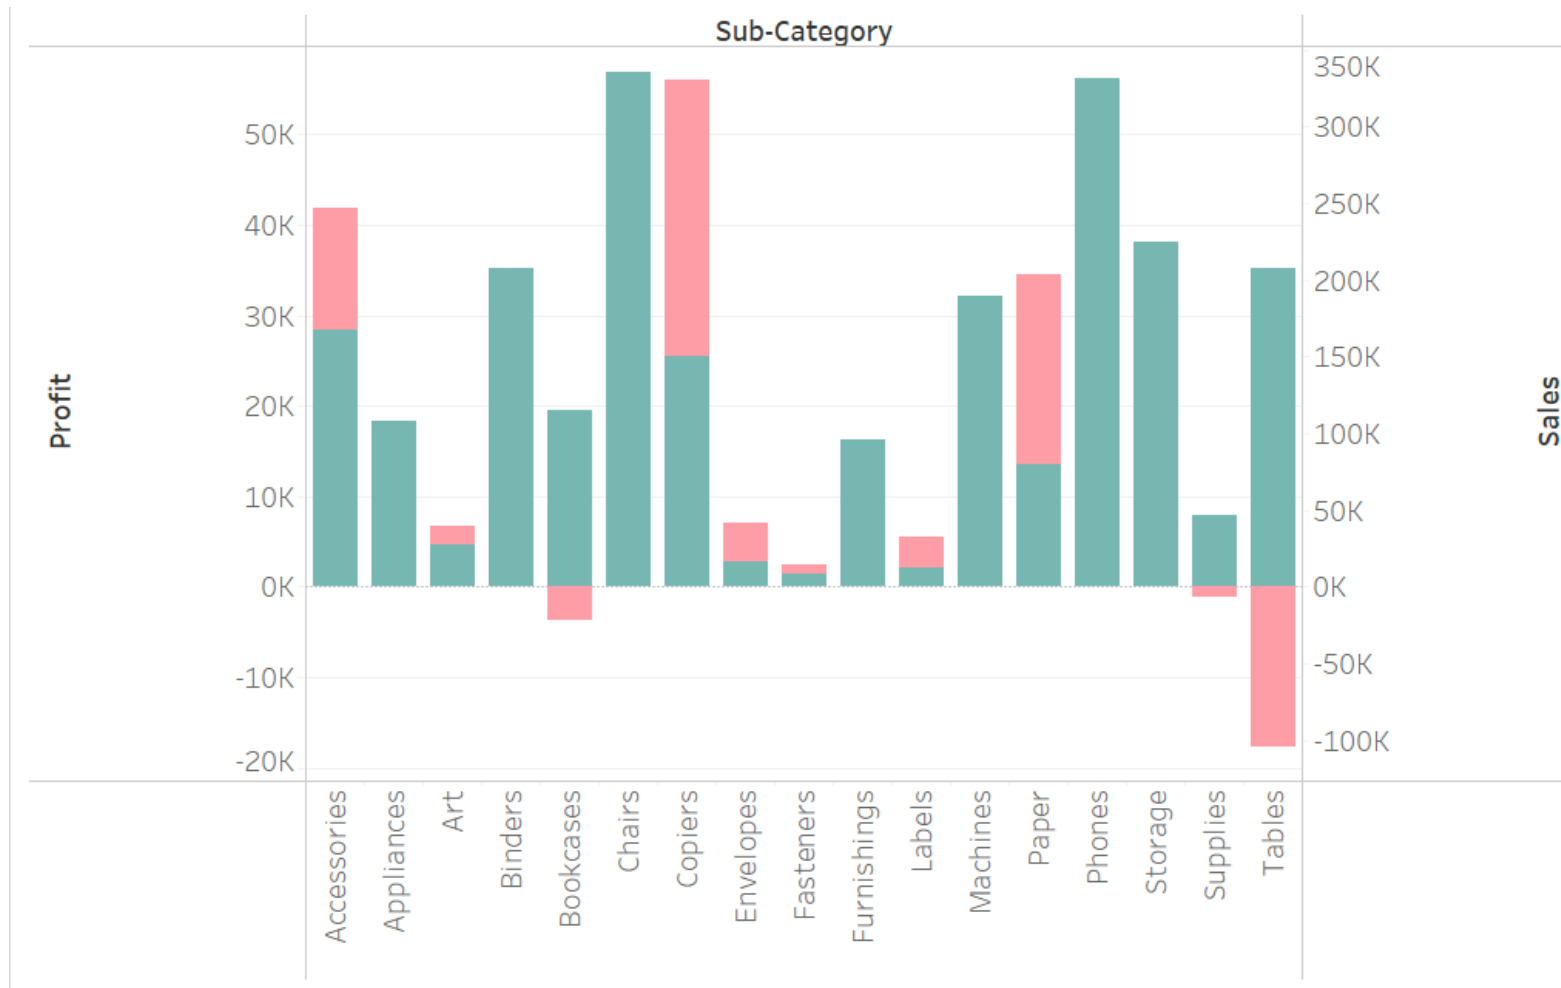

4. **Area Chart: Monthly Sales Trend (by Order Date)** – Displays seasonality and peaks in sales across months

5. **Bubble Chart:** Sales by Product Sub-Category – Bubble size represents sales volume of each sub-category

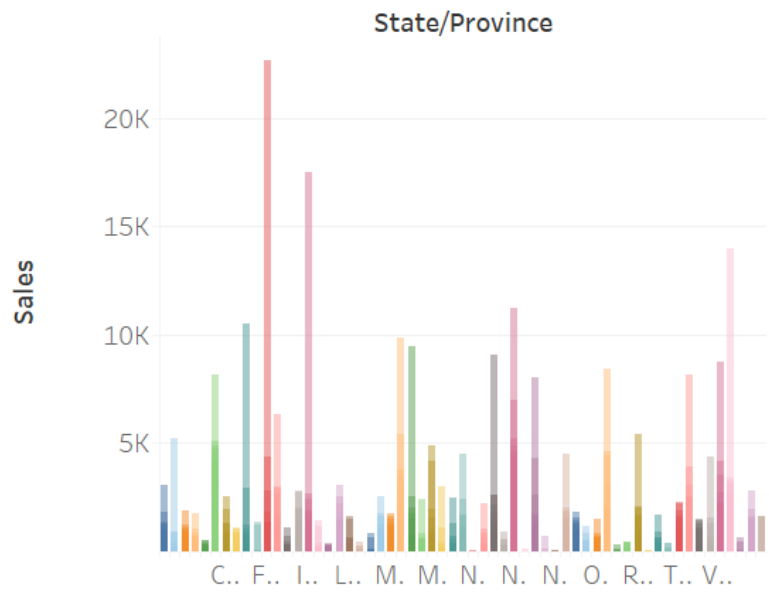

**6. Dual-Axis Chart: Sales vs Profit by Sub-Category** – Compares sales (bars) and profit (overlaid axis) for each sub-category.
